

EnviroLeach and Group 11 to Present at the 2020 Yukon Geoscience Virtual Conference

Vancouver, BC, November 24th, 2020, EnviroLeach Technologies Inc. (“EnviroLeach”), (CSE: ETI) (OTCQB: EVLLF) (7N2: FSE) is pleased to announce that it will be presenting at the Yukon Geoscience Virtual Online Conference on November 24th at 10:00AM PST.

EnviroLeach is pleased to co-host its first technical presentation with Group 11 Technologies Inc. at the Yukon Geoscience Virtual Forum as it works to test and develop In Place Mining of precious metals. Group 11 Technologies Inc. was developed out of the first-in-the-world test to recover gold utilizing the patent-protected EnviroLeach Process on material gathered and processed in the Yukon.

EnviroLeach and Group 11 will present its technical panel discussion, ‘*How Do You Mine Gold Without Moving a Rock*’, on Tuesday, November 24th at 10:00AM PST. For more information on the 2020 Geoscience Virtual Conference please visit: <https://yukongeoscience.ca/index.php/schedule>. A link to the panel presentation will be provided on social media outlets following the Geoscience Conference.

About Group 11 Technologies Inc.

Group 11 is a private US-based company committed to the development and application of environmentally and socially responsible precious metals mineral extraction. The combination of non-invasive extraction technology and environmentally friendly processes to recover gold and other metals provides an alternate solution to conventional open pit and underground mineral extraction. The goal of advancing sustainable extraction considers growing concerns surrounding water use and discharge, carbon footprint, energy consumption, community stakeholders and workplace safety while addressing a growing global need for metals in our daily lives. Group 11 is owned by EnviroLeach Technologies Inc. (OTCQB: EVLLF) (CSE: ETI), Encore Energy Corp. (OTCQB: ENCUF) (TSXV: EU) and Golden Predator Mining Corp. (OTCQB: NTGSF) (TSXV: GPY).

About EnviroLeach Technologies Inc.

EnviroLeach is engaged in the development and commercialization of environmentally-friendly formulas and technologies for the treatment of materials in the primary and secondary metals sectors. Using its proprietary non-cyanide, water-based, neutral pH treatment process EnviroLeach extracts precious metals from ores, concentrates, and E-Waste.

Backed by the momentum of the first-class staff of scientists and engineers, tens of thousands of individual tests and assays, independent validations, strategic partners and tens of thousands of hours in research and development, EnviroLeach’s technology is emerging as a potential new standard for the provision of eco-friendly methods for the hydrometallurgical extraction of precious metals in both the mining and E-Waste sectors. Further information is available on the EnviroLeach web site: <https://EnviroLeach.com>

Forward-Looking Statements

This News Release contains “forward-looking information” and “forward-looking statements” within the meaning of applicable Canadian and the United States securities legislation. Statements contained herein that are not based on historical or current fact, including without limitation statements containing the words “anticipates,” “believes,” “may,” “continues,” “estimates,” “expects,” and “will” and words of similar import, constitute “forward-looking statements” within the meaning of the U.S. Private Securities

Litigation Reform Act of 1995. Forward-looking information may include, but is not limited to, information with respect to our Research and Development activities, the accuracy of our capital and operating cost estimates; production and processing estimates; the results, the adequacy of EnviroLeach's financial resources and timing of development of ongoing research and development projects, costs and timing of future revenues or profits and adequacy of financial resources. Wherever possible, words such as "plans", "expects", "projects", "assumes", "budget", "strategy", "scheduled", "estimates", "forecasts", "anticipates", "believes", "intends", "targets" and similar expressions or statements that certain actions, events or results "may", "could", "would", "might" or "will" be taken, occur or be achieved, or the negative forms of any of these terms and similar expressions, have been used to identify forward-looking statements and information. Statements concerning future revenue or earnings estimates may also be deemed to constitute forward-looking information. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions, or future events or performance are not statements of historical fact and may be forward-looking information. Forward-looking information is subject to a variety of known and unknown risks, uncertainties, and other factors that could cause actual events or results to differ from those expressed or implied by the forward-looking information. Forward-looking information is based on the expectations and opinions of EnviroLeach's management on the date the statements are made. The assumptions used in the preparation of such statements, although considered reasonable at the time of preparation, may prove to be imprecise. We do not assume any obligation to update forward-looking information, whether as a result of new information, future events, or otherwise, other than as required by applicable law. For the reasons set forth above, prospective investors should not place undue reliance on forward-looking information. The CSE has not approved or disapproved of the information contained herein.
