

EnviroLeach Technologies Inc Receives Federal Funding for Research

Vancouver, BC, December 20, 2018 EnviroLeach Technologies Inc. (the "Company" or "EnviroLeach"), (CSE: ETI) (OTCQB: EVLLF) (7N2: FSE). is pleased to announce that it will receive a non-repayable contribution of up to \$95,000 from the National Research Council of Canada Industrial Research Assistance Program (NRC IRAP), a federally funded program that supports the research and development of innovative Canadian technologies, products or services.

This funding will be used in the continued advancement of EnviroLeach's proprietary chemistry and related technologies.

"We are very pleased to secure funding and advisory support from NRC IRAP," stated Duane Nelson, EnviroLeach's President & CEO. "The research completed under this program should enhance EnviroLeach's commercialization efforts in our target sectors: Mining & E-Waste" he added.

About EnviroLeach Technologies Inc.

EnviroLeach Technologies is a technology company that is engaged in the development and commercialization of environmentally-friendly formulas and technologies for the treatment of materials in the mining and E-Waste sectors. Using its proprietary non-cyanide, water-based, near neutral pH treatment process, EnviroLeach extracts precious metals from ores, concentrates, and E-Waste using only FDA approved additives and ambient temperature water.

Backed by the momentum of a first-class staff of scientists and engineers, tens of thousands individual assays, independent validations and strategic partners, EnviroLeach's technology will become the standard for the provision of eco-friendly methods for the hydrometallurgical extraction of precious metals in both the conventional mining and E-Waste sectors.
